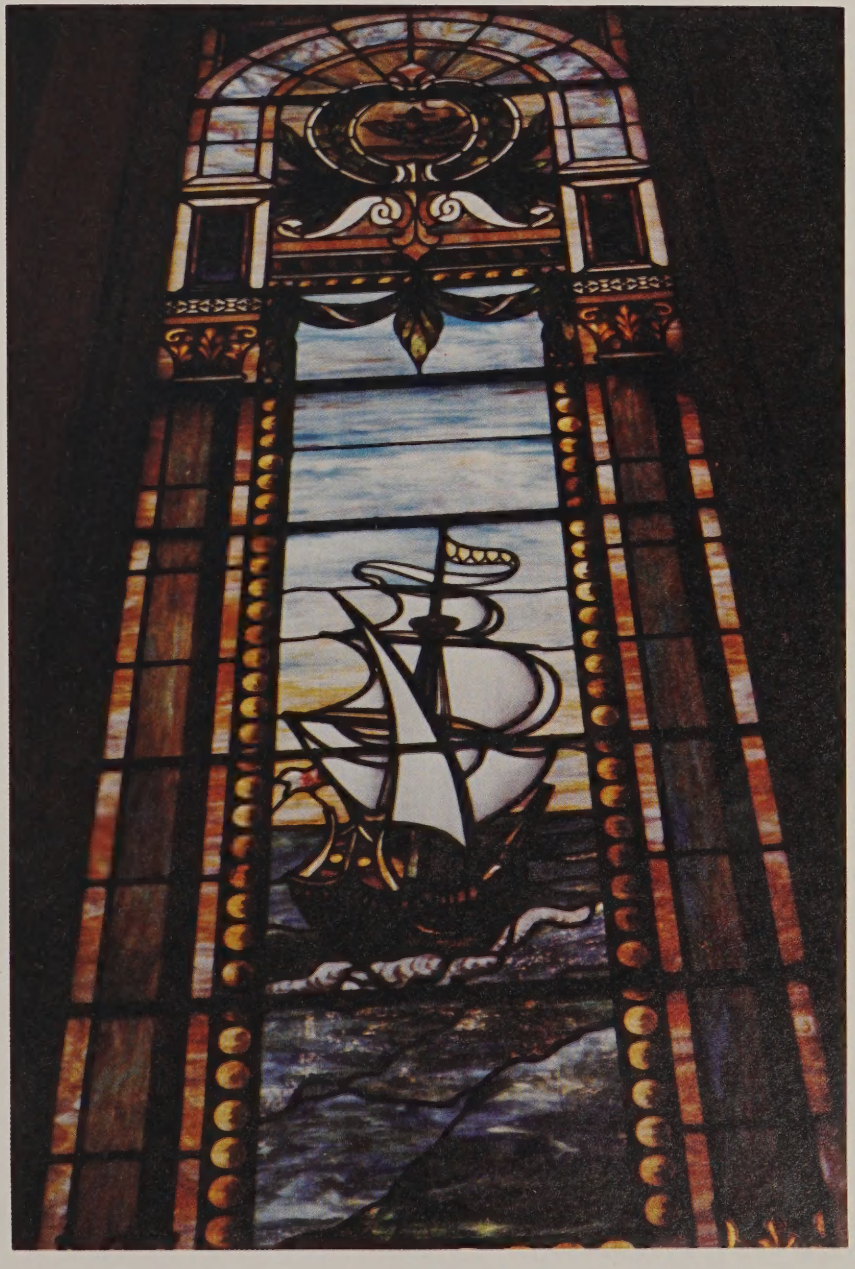
Nothing would be done at all if people waited until they could do it so well no one could find fault with it. Cardinal Newman



The Hawley Library, SUNYA Downtown Campus

In the beginning, it was pine bush-wilderness, haven of birds and butterflies. Then it was a golf course carts, sandpits and people carrying irons. Now it is a university — poured concrete, glass and students carrying books. The physical attributes of this campus only tell part of the story. The boundaries of Perimeter Road are not the limits of the college experience. Whether it is apparent or not there is a lot going on inside our walls, inside our heads, and out beyond Washington and Western Avenues.

Enter and move around the confines of the school. See what we are doing, what we are thinking . . . There is more here than grey concrete and textbooks.

"Look to your left. Now look to your right. At the end of the semester one of these people will not be here."

Academic life is not easy. No matter how much fun you've had at school, it is guaranteed that you have worked harder than most other students at most other colleges and universities. Where else do you have difficulties finding seats in the library, even weekends? How many times did you avoid going away, going out, doing **anything** but working on your paper/ problems/ program/ etc.? How often did you think, "College life would be fine if it weren't for classes?"

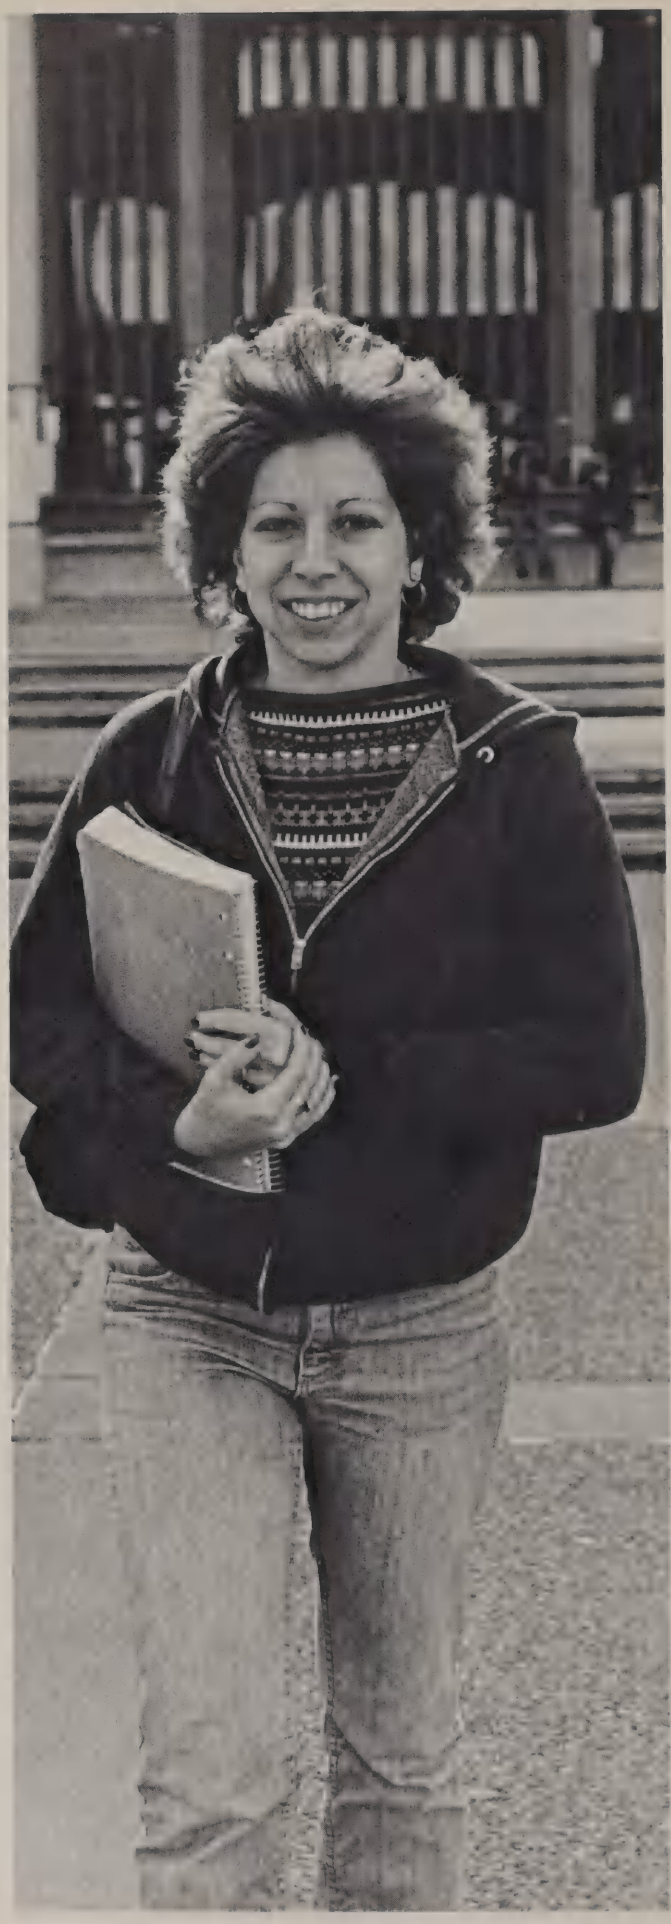
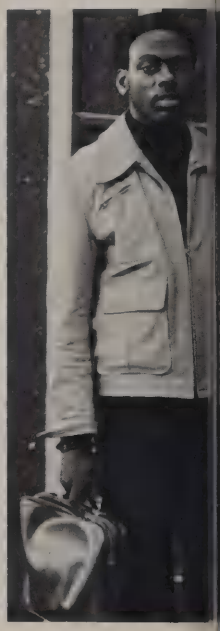
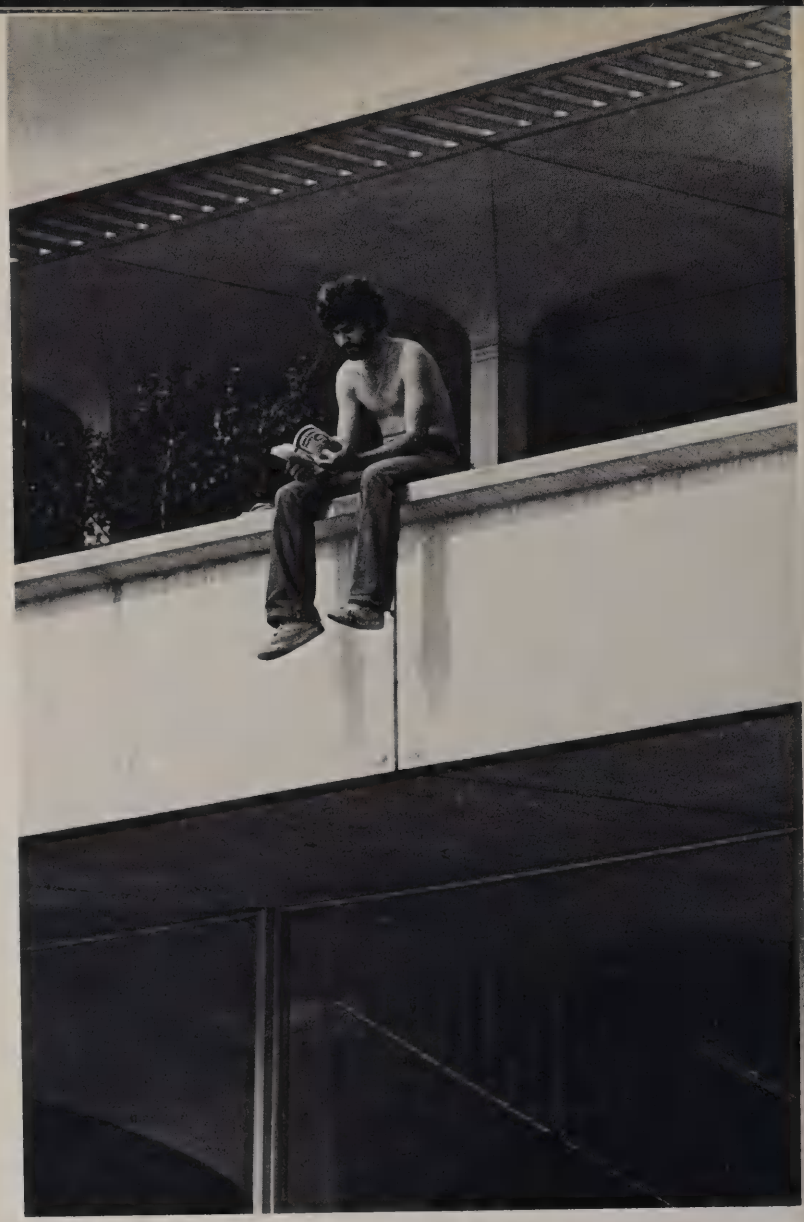
for an easy life.
Pray to be a
strong person.







They come to sing, they come to play, to read, to sleep, to chat with friends. They bring frisbees, footballs, guitars and flutes — even the ASP. They watch the world pass by in review. Some carry their books with them; they may get some work done, but it is unlikely.

Podiating. You won't find the word in a dictionary but every SUNYA student, past and present, knows its meaning. Take one warm day (by Albany standards that is anything above forty degrees). Add a little sunshine, if it's handy. Then sit back and watch the exodus from the tunnels. They'll come out between classes, they'll come out **during** classes. It is difficult to believe that many students are on campus at one time. They are draped on the planters from the library to the PAC, Administration to the Campus Center. And they will not move until the sun goes down.

# CO-OP-ING

Through some room shuffling and a little construction work the Barbershop Food Co-op was moved from its namesake position in the basement of the Campus Center to the first floor. The move gave the Co-op badly needed extra space as well as more visibility and accessibility than ever before. Yogurt, anyone?

# SNOWY SCENES AND FROSTBITTEN FINGERS

Albany is not generally known for its mild winters, especially to those people who call the warmer climates downstate home. But even a polar bear would admit the winter of '78-79 was **COLD**. Temperatures remained below zero for ten straight days in February, breaking records and keeping all but the bravest souls indoors. For those who ventured beyond the tunnels, Washington Park was a Winter Wonderland.

Washington Park. When the symmetry and sameness of the campus stifles the spirit, it is a refuge. There are children there, and dogs, and old people, not just students. It is a place for wandering and wondering, for collecting your thoughts and throwing off your worries. A place where you can imagine you are far from Albany, yet it is just a block off the busline. Caught between Western and Madison Avenues, the seven acre park has existed for the enjoyment of Albany residents for over a hundred years. There you can be a part of the annual Tulip Festival, the Pinksterfest, or take in a free Sunday afternoon concert in the sumertime. It may not be Paradise, but it's a good place to escape to.

# The PAC — FILLING A CULTURAL ABYSS

The Performing Arts Center, or PAC, is located at the eastern end of the center court of the academic podium, opposite the library. It houses five theatres and the departments of theatre and music, along with dressing rooms, shops, classrooms, recital hall, rehearsal and listening rooms, lounges, etc. It is by far the best community resource for artistic entertainment in the Capital District. And it's all our own! Where else can you see a Shakespearean tragedy, an original comedy, a musical recital and a professional dance company all in the same month and for less than it would cost you to take the AMTRAK down to the city for a Broadway show?

The University at Albany has been the forerunner in dramatics for many years. It all began in 1914 with the establishment of an advanced dramatic course in directing. Harvard and Wisconsin were the only universities before us to start dramatic studies.

We've come a long way. Our Performing Arts Center has brought us comedy, tragedy, poetry, imagery, fantasy and music, all in the same academic year. A recent list of productions reads like a Who's Who and What's What in Dramatics: Ntozake Shange's **For Colored Girls . . .,** Shakespeare's **Richard II,** Moliere's **George Dandin,** Mozart's **The Magic Flute,** Playwright-In-Residence Ross Alexander's **Falling Apart,** etc.

There has been a lot of good free theatre made available to students and the general public as a result of the PAC, and we should be proud of what they are doing.

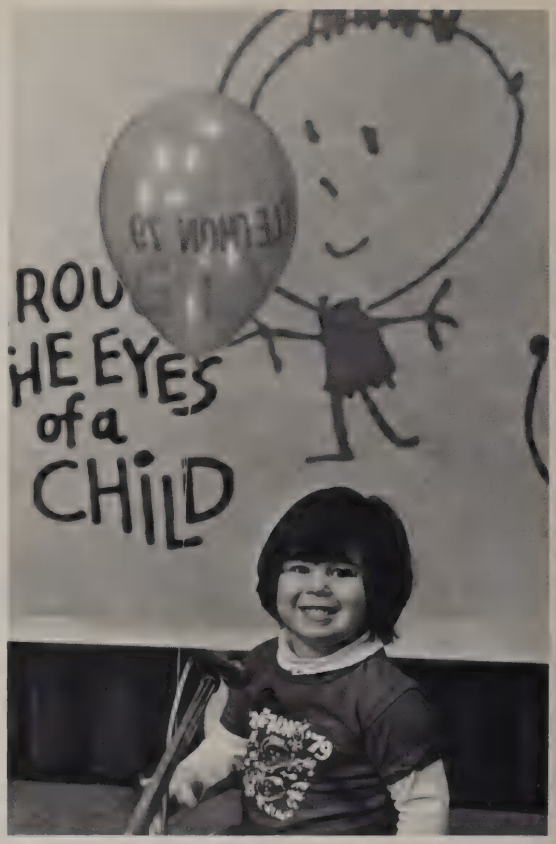
# TELETHON '79

*"Through the Eyes of a Child . . ."*



"The essence of Telethon is Children's Hour . . ."

SUNYA's annual Telethon is the largest student-run fundraising event in the country. This year, as in the past four, the proceeds were donated to the Wildwood School for Developmentally Handicapped Children in Schenectady.

It culminates in one big twenty-four hour extravaganza, but Telethon is a year-round experience. Throughout the year fundraising events include a twenty-mile Walkathon, T-shirt sales and a faculty-student basketball game. Continuous auctions during the twenty four hours raise additional dollars. Penny by penny the collections grow until a grand total of $34,895 was raised, enabling Wildwood to purchase land for a summer camp.

TELETHON 77

Telethon is a 24 hour entertainment marathon. The most talented performers appear on TV hour, broadcast over all three local stations. TV favorites have been Kevin Ferentz on piano, the downtown jugglers, and the Barbershop Quartet. This year's show stoppers included "The Village People," "M. Johnson and Company," "The Pointless Sisters" and the "Blues Brothers." Pies were thrown in the faces of such campus notables as UAS president Norb Zahm, Paul Feldman, Fred Brewington, Debbie Raskin and several professors, quad coordinators and students, all in the interest of raising money for the Wildwood kids. Telethon '79 is behind us, but the tradition of giving so that others might achieve lives on.

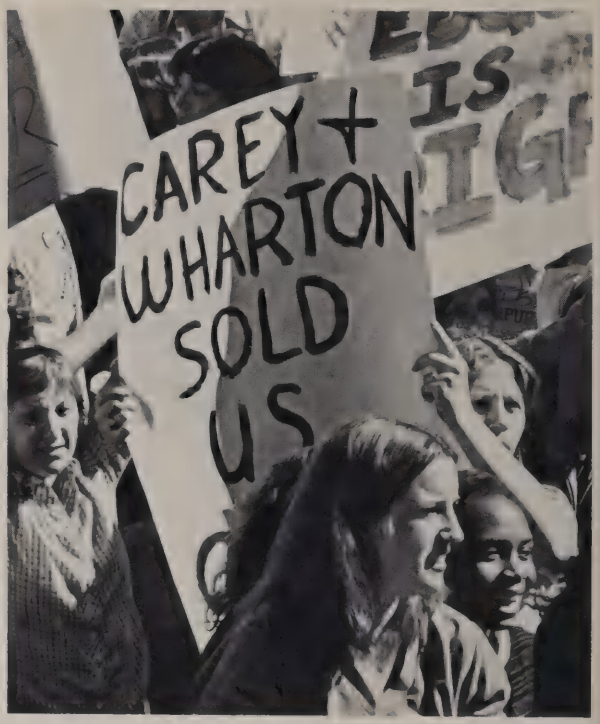
# DIVESTMENT

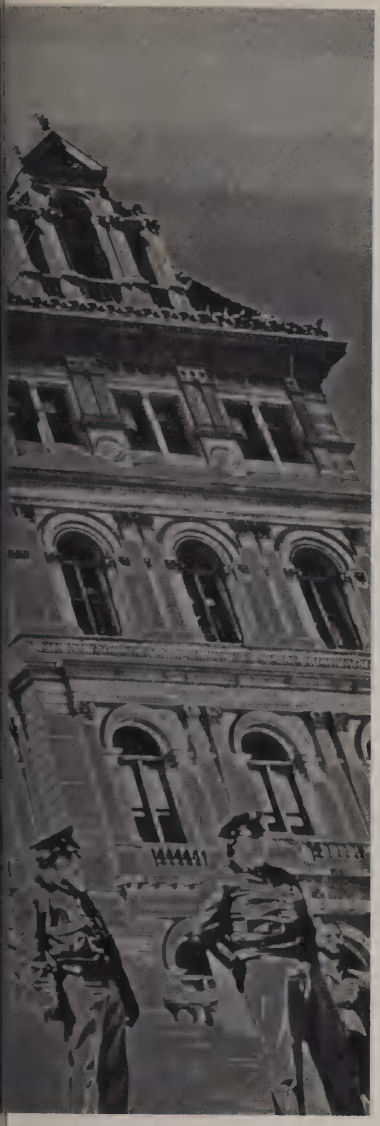
One of the issues on campus this year was the concern over divestment. SUNY holds approximately seven million dollars in investments in corporations which do business in South Africa. By granting loans to the South African government, setting up trade, and making investments, the corporations SUNY holds stock with support the Apartheid system, a legalized segregation of blacks and whites. In protest, SUNY students throughout the state formed Anti-Apartheid Committees. Here at Albany, the Divestment Committee consists of the Student Union, ASUBA, and unaffiliated people who have held forums on the issue, a demonstration calling for the withdrawal of SUNY support in South Africa, and testified before the SUNY Board of Trustees. Their efforts remain blocked by the denial that the investments are detremental to the blacks in South Africa. So the struggle continues.



Fight the Hike. The message was brief but the intent was clear. Convince the legislators and the SUNY Board of Trustees that a $150 annual increase in tuition would not, could not be accepted by the students of New York State. A march on the Capitol was the last step in a three month effort to prevent the tuition increase. A group of 600 students collected in front of the Campus Center where rousing speeches started the rally. Support grew as the demonstrators marched through the academic buildings and lecture centers. The roar of their voices could be heard from all ends of campus. By the time they reached Washington Ave. for the walk downtown they were 2200 strong.

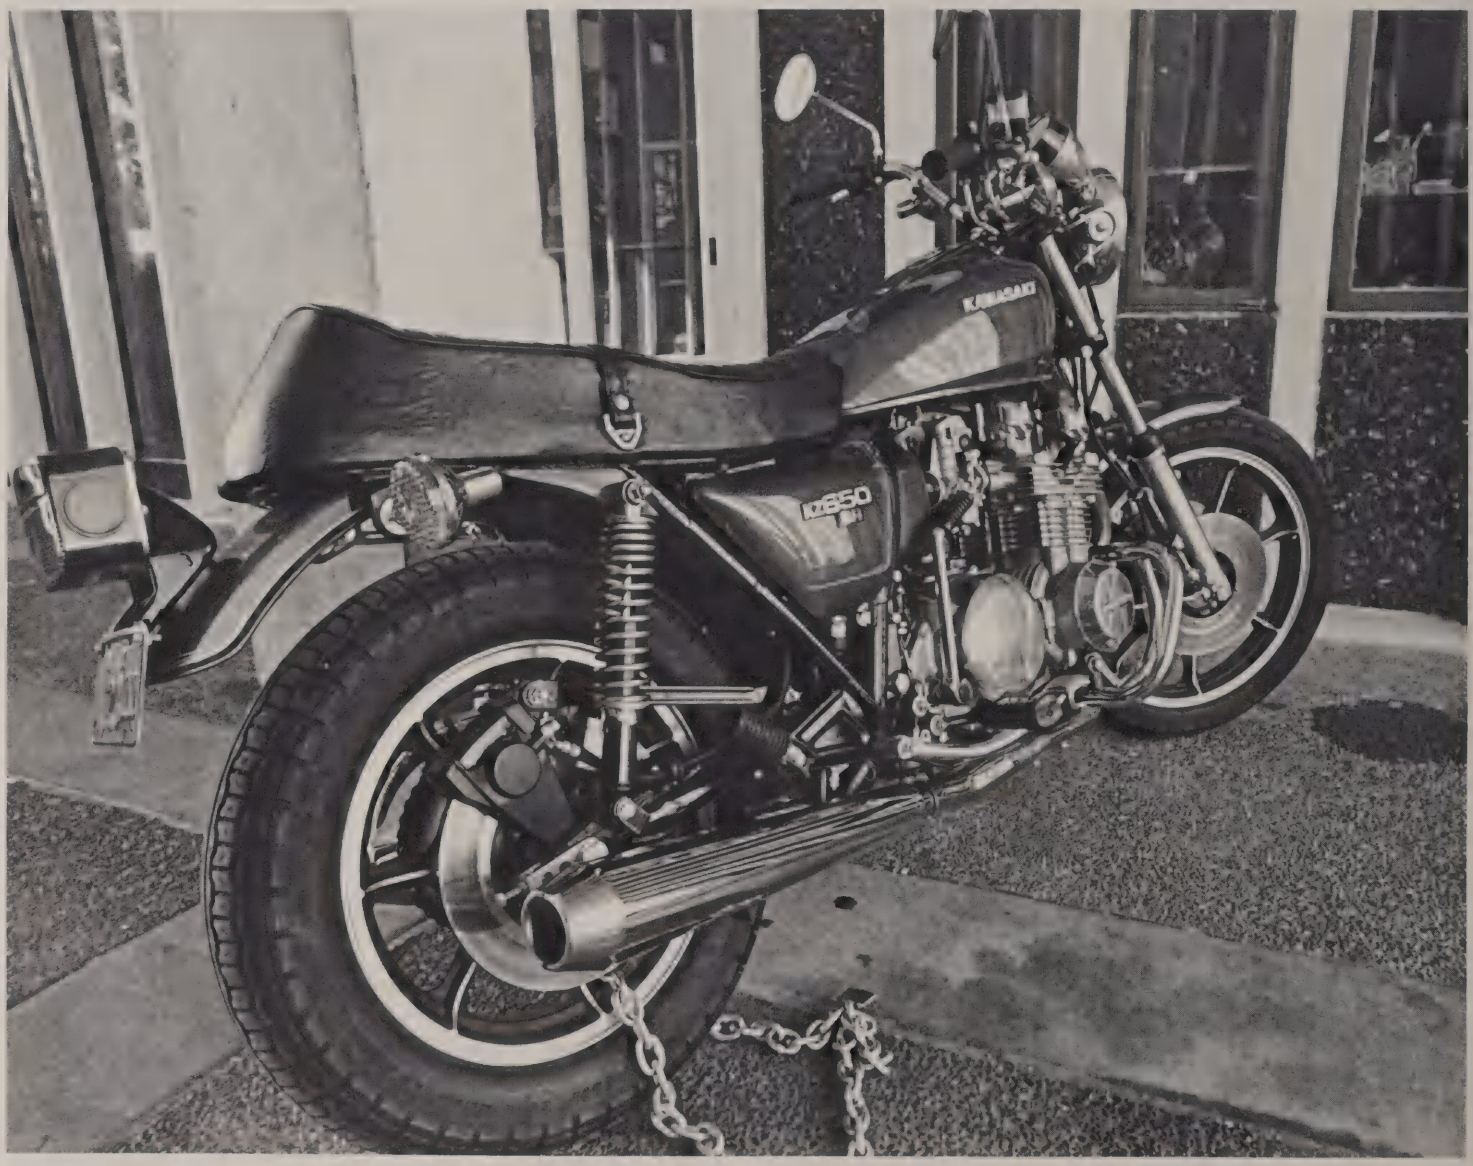
# RALLY ON THE CAPITOL!

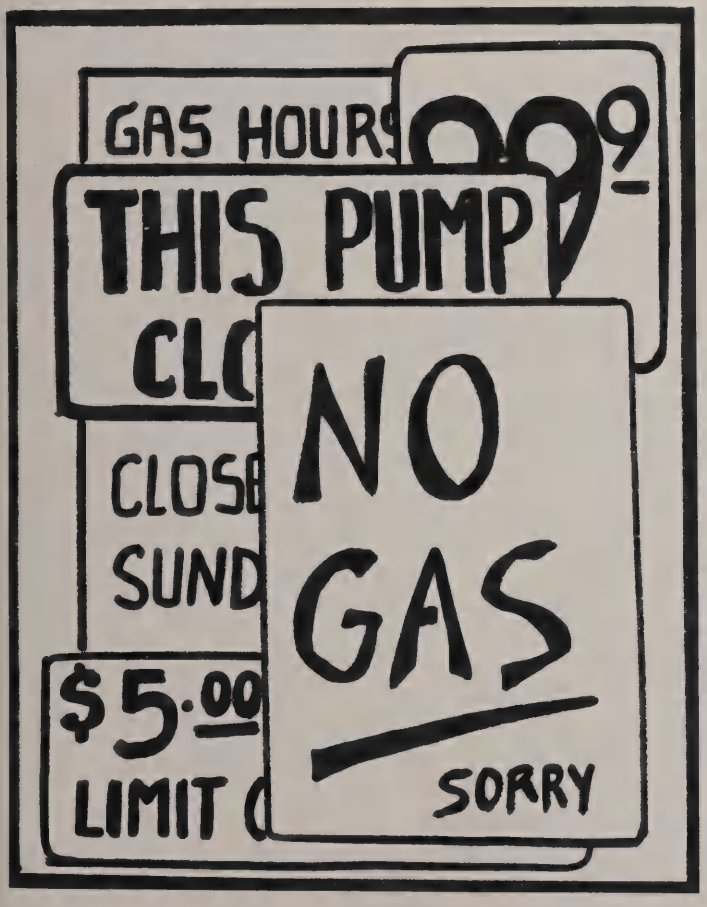
The group marching from the uptown campus was met at Alumni Quad by the downtown students. At the Capitol they were joined by another group coming from Lincoln Park. There were nearly 5000 people representing nearly all the CUNY and SUNY schools throughout the state.



All the strategies, the pleading, the yelling were to no avail. The Board of Trustees approved a measure that will raise lower division tuition to $450 per semester and will increase the cost of professional schools throughout the state system as of the fall semester 1979.

# WHERE, OH WHERE HAS THE GASOLINE GONE?

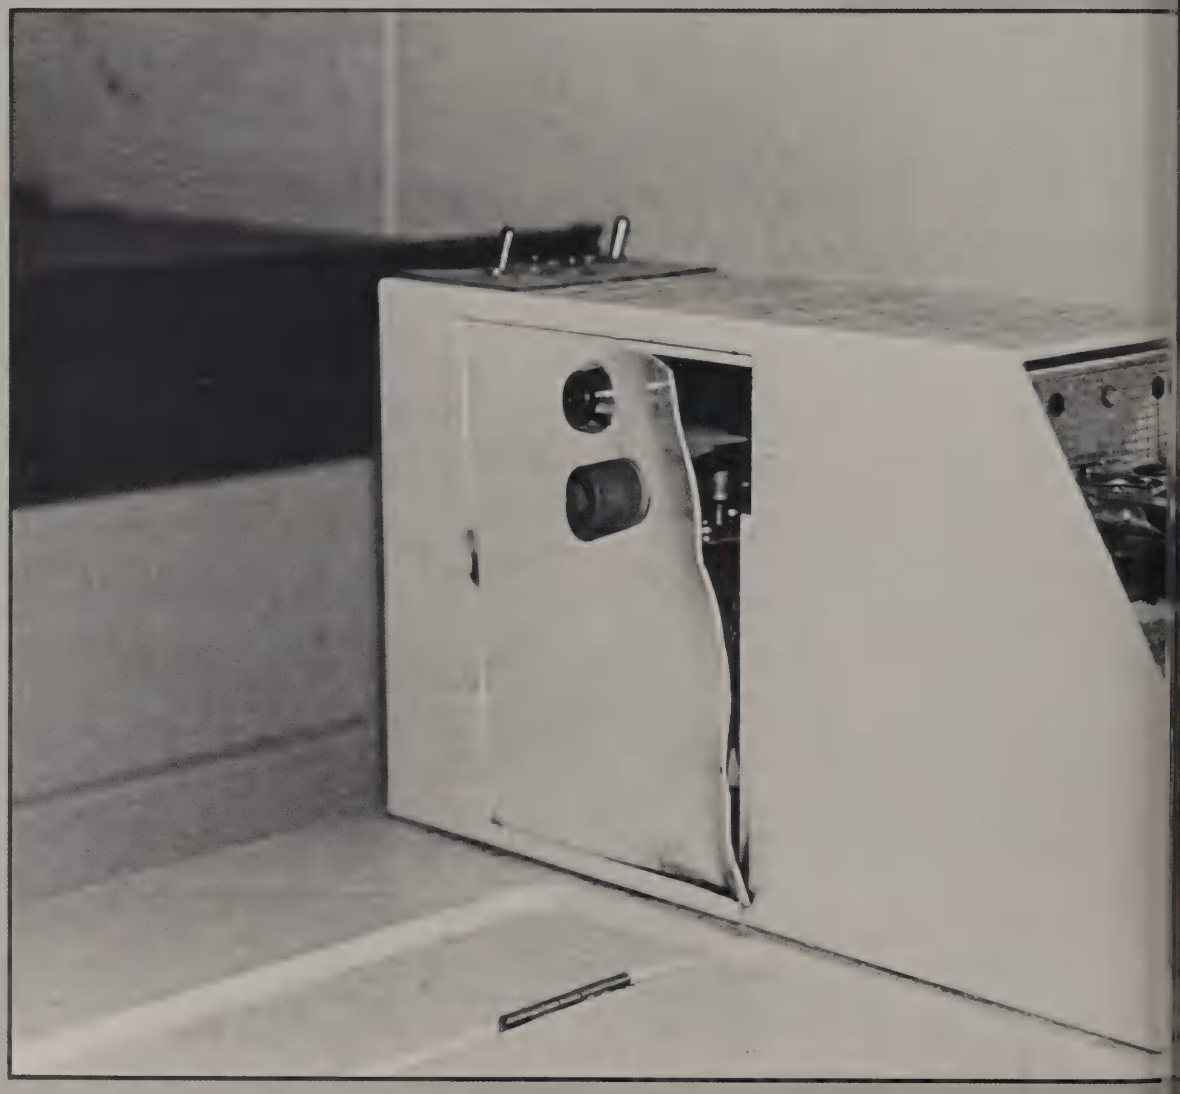


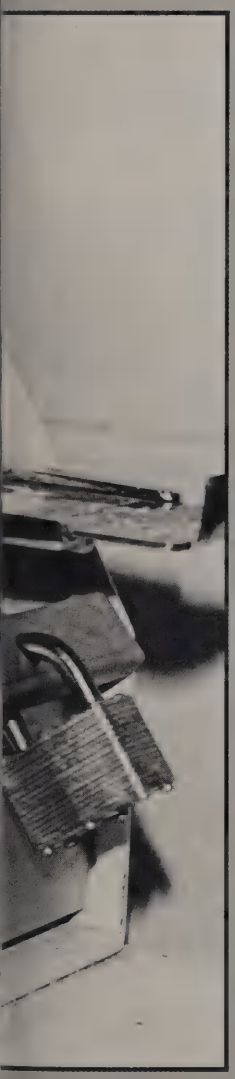


One dollar a gallon. The price is a shock but the scenes are familiar. The long gas lines, talk of rationing, odd-even allocation, and the difficulty of finding open stations on weekends are reminiscent of the last gas crunch, just five years ago. Unleaded is particularly hard to find, and even more expensive than other blends. Self-Service is nearly extinct. Rapidly following are the larger cars, as the powerful beasts that guzzle one gallon every ten miles slowly starve.

Many claim the current gas crisis is a farce, that we are victims of the oil companies. "Let prices go up to where they want them," they say, "and gas will be plentiful." The government claims the energy crisis is real. President Carter even drafted an emergency rationing plan that was vetoed by Congress. In the meantime, people are paying more and finding less. And worrying, "What will happen to heating oil?"

The feelings and frustrations of some students on campus are not expressed in words; not written on placards nor chanted at rallys. Vandalism is rampant.

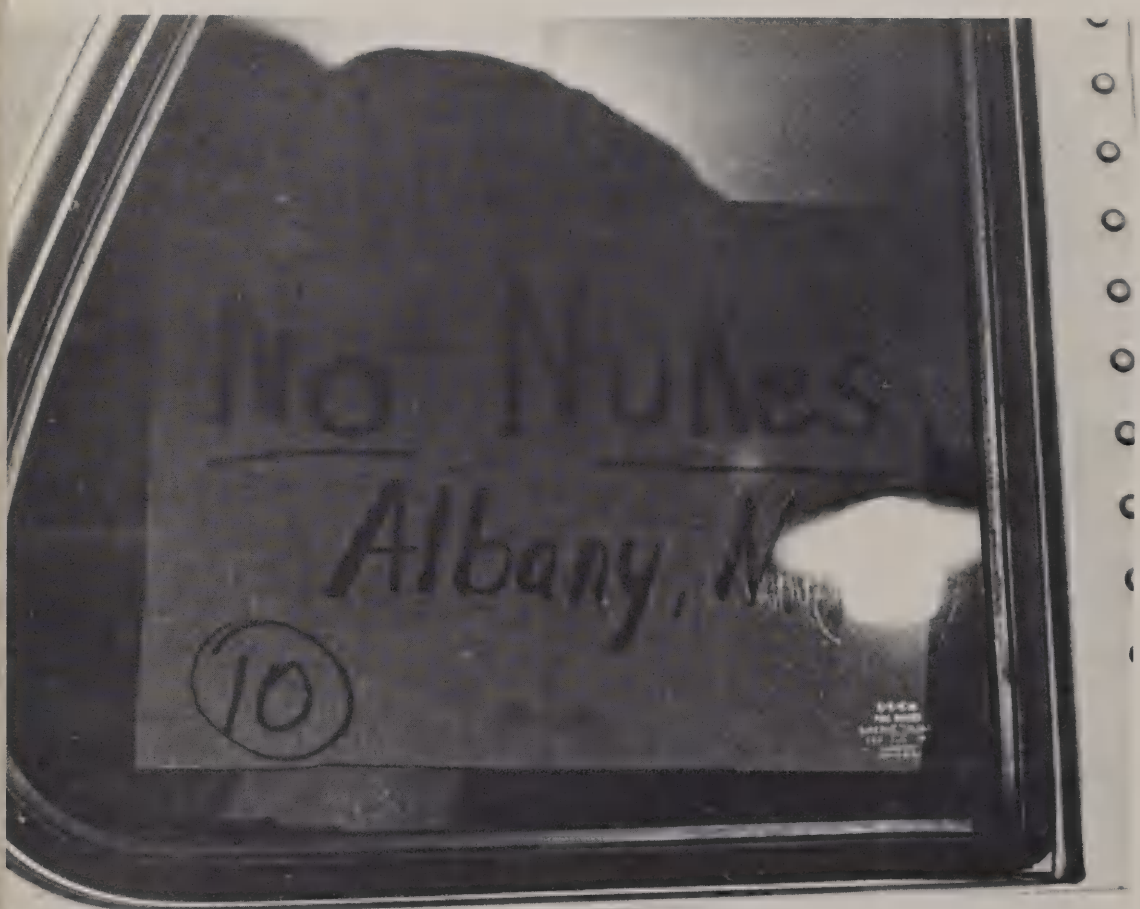




Some areas of campus resemble the South End of Albany.

Is this the legacy we wish to leave behind us?

# 2-4-6-8
# WE DON'T WANT TO RADIATE



The China Syndrome. Meltdown. Three Mile Island. These are words that inspire fear in most Americans these days. Following a nuclear accident in a power plant just outside Harrisburg, Pennsylvania thousands of people converged on Washington to express their singular, unanimous opinion: **NO MORE NUKES !**

Jane Fonda, Dan Fogelberg, Jerry Brown and others were there giving their support to the anti-nuclear effort. Most felt solar energy was the only solution. All felt something had to be done to prevent other potentially disasterous nuclear mishaps.

Here in New York anti-nuclear groups held demonstrations at the Empire State Plaza. Governor Carey came out strongly against nuclear energy, and testing was ordered at many of the state's nuclear plants. A massive demonstration was held at Long Island Lighting Company's Shoreham plant, still under construction.

So it seems that the word is out, the people will be heard: **NO MORE NUKES !**

NO NUKES
CATS AGAINST NUKES

NO NUKES

# 'BYE 'BYE NURSING

The nursing program was begun here at SUNYA in 1967. In the twelve years of its existence it graduated high quality nurses; they demonstrated great proficiency on state boards and had an excellent placement record. The school was accredited by the National League for Nursing. But it was a costly program to run, and during the budget crunch in 1975-76 many departments were streamlined or eliminated altogether. The nursing school was one of the unlucky ones.

Of course the students in the program were angry and upset with the decision. There was some comfort in the guarantee that students that were enrolled in the program would be allowed to complete their studies. But they would be the last.

It is now 1979 and the last class has finished the classroom and clinical work that has familiarized them in all areas of the nursing profession. These 59 carry with them the good name of a university that was more than a little hard on them. Best of luck.

FIRE

Since the sixties the size, visibility and influence of fraternities and sororities has diminished at SUNYA and other campuses throughout the country. This year Greeks have received new notice in the wake of National Lampoon's **Animal House.** The wild fraternity life of toga parties, dilapidated frat houses, and elaborate pranks are not characteristic of the many fraternities and sororities on this campus, however. A major function of these groups is fund-raising. Groups often sponsor blood drives, raise money for research organizations and Telethon, as well as show movies and throw parties.

# GREEKS

Sigma Tau Beta

Kappa Delta

Delta Sigma Pi, the professional business fraternity, participated in a wheelchair basketball game against the SUNY Spokes.

Psi Gamma at the Alumni Fund Phonothon

Theta Xi Omega

Omega Psi Phi

The renewed interest in greek organizations is especially evident in the establishment of a new black fraternity, Omega Psi Phi, and a new black sorority, Delta Sigma Theta, on campus. Omega Psi Phi, or the Lampados, caught campus attention through their elaborate initiation rites. Marching in single file, in "uniform", chanting, carrying bricks and performing shows of physical dexterity mark this organization as unique among campus societies. Some of the brothers are pictured here leaving the library after one of their nightly study sessions.

Chi Sigma Theta

But in the final analysis there's nothing like partying, and greek groups know how to do it best. Potter Club kicks off the weekend every Thursday night with parties that have caused a bit of controversy in the past. And nearly all organizations culminate their rush periods with a formal dinner dance.

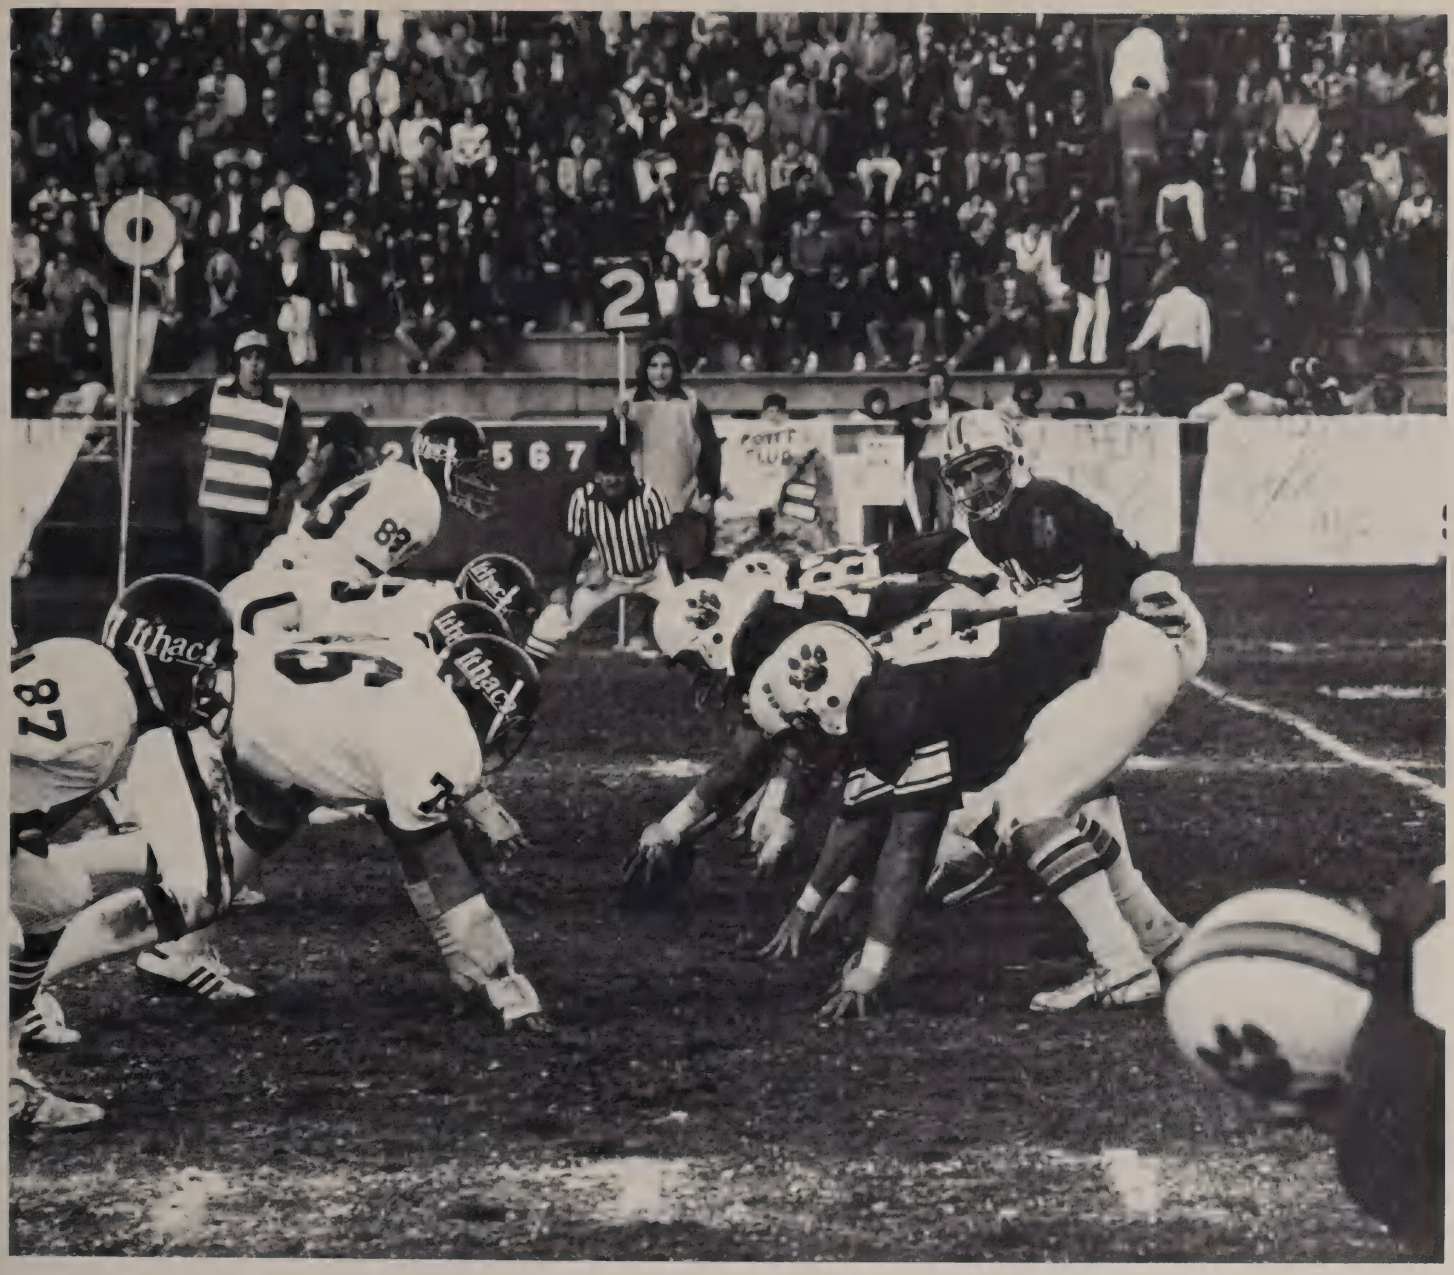
# ALBANY VS ITHACA



It was a rare opportunity: the Danes on television! But against Ithaca? We didn't have a chance, we would be humiliated on national television! Or would we?

The game was moved to Bleeker Stadium. Game time was changed. The cheerleaders and Pep Band staged a Pep Rally downtown. Spirits were soaring as we geared up for the big game. Yet the odds-makers still favored Ithaca over Albany.

They were wrong.

When you watch college athletics on television, you see crowds of spectators in the stands, cheering on their team. They celebrate together in victory. They console each other in defeat. Most students here feel such a scene would never occur here in Albany, apathy's capitol. But don't tell that to the cheerleaders, Pep Band or Kickline. They can draw enthusiasm from the smallest of crowds. They faithfully follow the Danes, win or lose. And they have not yet forgotten what the Purple and Gold stand for, even when many others don't know, or don't care. No, sports are not the most important aspect of this university, but don't tell the cheerleaders, Pep Band or Kickline.

# NCAA's A Tiebreaker For Booters & Cortland

The Albany State booters face Cortland tomorrow in the first round of the NCAA Division III tournament. Earlier this fall, they played to a scoreless tie. (Photo: Mark Halek)

by Ken Kurtz

Losing in the match is a toss-up, but it will be a real interesting game, and I'm looking forward to coaching it," stated Albany soccer coach Bill Schieffelin, relating his thoughts on tomorrow's NCAA Tournament match-up against Cortland.

Albany goes into the fourth with an 8-3-2 record coming off of Thursday's 1-0 SUNYAC title game loss to Brockport. Cortland, last year's Division III runner-up National Champion, is 10-1-3, their only loss suffered at the hand of SUNYAC opponent Binghamton.

The two teams met at Albany earlier this year, and the result was a scoreless tie. Both Schieffelin and Cortland coach Fred Taube agreed that the wind factor detracted from that game.

Apart from "the wind, the Albany game was our fifth of the season," remarked Taube, "and at that time, we were even starting freshmen due to injuries. Right now, we're starting to round into a situation where people are playing their best soccer, since they've played together through fourteen games."

Cortland has five seniors who played on last year's tournament team, and Taube added, "This is a veteran team. They've been to tournaments before, and will play better because of it."

Up front, Cortland will be counting on Tom Robusto (7 goals, 2 assists), Mike McCausland (4-1), and Ned Mower (4-4) to generate the offense. Opposing this line will be Albany forwards Gaston Alvarez (11-2), Matt Petrella (12) and Robert Dalsabo (1-1), with Jimmy Alvarez (2-2) being the first one in off the bench.

Albany has the talent. Their boots put the ball into the net. The weather is supposed to be superb and I think it's going to be a high scoring contest," said Taube.

Despite Taube's beliefs, the

## Plattsburgh: Looks Easy, But...

by Paul Schwartz

The magic moment ended. After weeks of preparation, the Danes had beaten their most fierce rival, Ithaca. With their record at 6-2, Albany now sets their sights on an unimpressive six as Albany had been an

The Cardinals of Plattsburgh, owners of a 1-6 mark and entering battle in the way of inspiration as the Danes oppon tomorrow.

After a big game, there's always a problem in playing a team that generates very little emotion," said Dane head coach Bob Ford. "It sometimes is an unusual letdown and that's how you get beat."

It will be for the Danes to be disciplined for post-season play. They must not merely defeat the Cardinals, but rout past them convincingly. It is this unknown factor that really bears incentive-building treatment.

Our team has set some objectives to accomplish," added Ford. "I feel we have a mature enough football team to carry them out. The NCAA selection committee meets on Sunday, so we need an impressive win over Plattsburgh to help our chances."

After the shocking 13-8 loss to a weak Buffalo squad a few weeks back, the Danes learned a very valuable lesson that they take with them to Plattsburgh. "It's tough to take anybody lightly after the Buffalo game," commented Dane coach Mike Walsh.

However if there was a team that could be taken lightly, it is the Cardinals. After a 41-0 trouncing of Marist in the season opener, Plattsburgh proceeded to receive more frontlining than they inflicted against opponents, succumbing to the Danes, Plattsburgh was beaten by Brockport 20-8 (Danes 42-28) and blasted by Cortland last week 44-22 (Danes 41-31).

Under first-year head coach Erle Sprague, the Cardinals come out with a tricky wing-T offensive setup but have only managed to score a stingy 12.0 points a game. Leading the attack is quarterback Jeff Burke who is strictly a passer as the Cardinal version of the wing-T contains no quarterback running plays.

"Throwing quarterbacks have given us problems all year," said Ford, "and Burke hurts us with his passing in last year's game. They ruined the ball against us and it was a close game in the first half." The Danes went on to banish defeat, Plattsburgh 47-21 in last year's contest.

The key ball carriers for Plattsburgh are returning back Vernon

## *Danes' NCAA Bid Hinging On Ithaca-Towson Battle*

While the Dane-Plattsburgh game is in progress, two other games that also hold the fate of Albany's playoff bid will be going on. St. Lawrence (8-1) goes up against Rochester and the Saints undefeated top-in-the-east ranking figure to fare to a weak Rochester squad.

The contest that the Danes will be anxiously watching is the Ithaca-Towson game. Ithaca is currently second in the Lambert rankings with an 8-1 mark and have a tough challenge from an explosive Towson club. For the realistic shot at the NCAA playoffs, whose participants will be selected Sunday, the Danes must keep either St. Lawrence or Ithaca knocked off tomorrow. Albany has beaten both Towson (37-28) and Ithaca (49-0) this season.

"I think the Ithaca-Towson game should fill a helluva stadium," said the Dane head coach Bob Ford. "I was impressed as hell with Towson when we played them, but I think they used poor judgement against us. They underestimated our strength, and they thought they could run all over us.

"With the strength of their passing attack, they really don't have to be all that strong against us. That Meehan has a great arm. Towson quarterback Ron Lubell knows some receiver with respect. Let's, I don't think they are going to be underestimating Ithaca though.

"Since the Danes defeated Towson a few weeks ago, the Tars have played dominant football, allowing a total of seven points in their

SPORTS ANALYSIS

## *Hobbling But Ready, Booters Enter The Title Chase*

by David Osborn

Insulting vengeance on the Brockport soccer team was unfortunately not for Albany St. at the Dane's first-ever appearance in NCAA Division III post-season play. Their little upper-state rivals, equipped with the toughness and the organized confidence in attacking that has characterized their entire season, [illegible] was thrashed and humiliated [illegible] but unbeaten in conference play, and [illegible] related invitation to Albany. The squad [illegible] Glens in the New York-New Jersey region and both reached the tournament because Keen College suffered fourth-round playoff elimination to Brockport.

Despite [illegible] Brockport [illegible] Albany [illegible] the [illegible] Albany [illegible] suffered a painful [illegible] that was seen [illegible] the opening round playoff game at Cortland State on. Unless recorded minimal [illegible] and health was the major Dane obstacle for the Brockport game.

Captain Mark Wenzel, hurt his right ankle against Hartwick on September 23 and [illegible] a contest [illegible] to determine [illegible] opponent, [illegible] John Shaw, a defenseman is also hobbling and [illegible] Dagobert, who [illegible] should play against Cortland. [illegible] are fleet-footed but ready for the playoffs.

Albany's [illegible] the penalty is [illegible] director Brother [illegible] and [illegible] a crucial scorer sometimes [illegible] Danes 2-1. Another [illegible] scored [illegible] the region didn't have the challenging schedule Albany [illegible] on. San Jose St., Hartwick and St. Francis, all Div. I powers, were three of the Dane conquerors.

Schieffelin's [illegible] is well-founded. Perhaps any soccer who failed [illegible] were for Albany should be stripped of his pen, denied media [illegible] and be forced to [illegible] workouts with a Buffalo

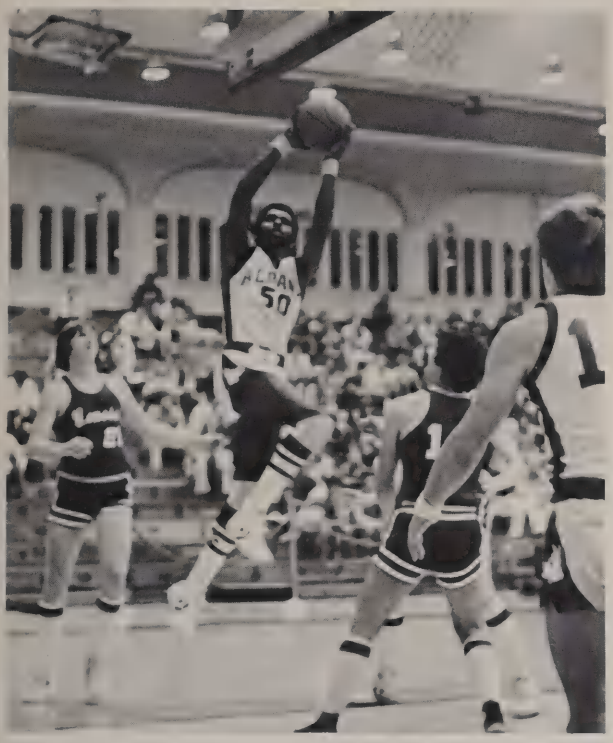
## *Flashback: The Long Road To The NCAA Playoffs*

Season In Review

All Albany can do is wait to hear about the playoffs. Late Sunday afternoon the NCAA committee states that Albany was not selected for the Eastern Regional. Instead Albany will compete in the Southern Regional in Danville Kentucky



## Danes Leave South Down And Out

by Paul Schwartz

DANVILLE, Ky. — At halftime Friday night, there was really very little to worry about. Not only were the Danes evening, but they had taken their advantage with a dominant ease. The Albany squad ran thoroughness off the court secure with a new sight and, and full of brimming confidence. Clearly, things couldn't have been much better.

But it got even better. Playing experts basketball, the Danes started ahead by 13 points, and never went on their way to a victory over Savannah State in the first round of the NCAA Division II Southern Regional. For Albany, sports were as bright as the night that brought them to Kentucky.

The Danes came back strong to earn with a crisp landing.

The story is not a new one. Albany had the game in their hands and then gave it away. Savannah reacted to the gift and fought back to win the contest. Albany's end came in overtime. A furious comeback in the final seconds was not enough. Confirmation was now a reality. The Albany players were going back to play a road game in many weeks from the Danes' home.

We shouldn't have gotten them. Last season alone. And anybody on our team. And then, I felt we shouldn't have beaten them. That's why it's so hard that I supported.

Albany registered 31 and field goals in the regional by defeating Lane College 81-63 in overtime the

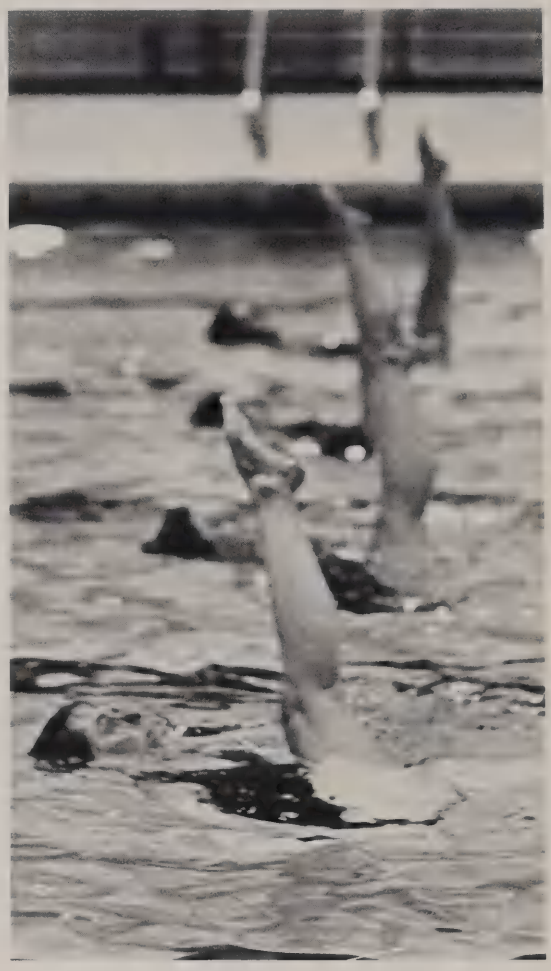
# SWIMMING & DIVING

# SYNCHRONIZED SWIMMING



Synchronized Swimming is a relatively new sport on this campus. It is a demanding sport, requiring skill, strength, grace and endurance. The Cygnets have proven they have all these, as well as being hypnotic performers. They captured the Eastern Regional Title at Villanova and hosted the first-ever national AIAW Synchronized Swim meet. The Cygnets are definitely a team to watch in the future as well as in the present, right in the University pool.

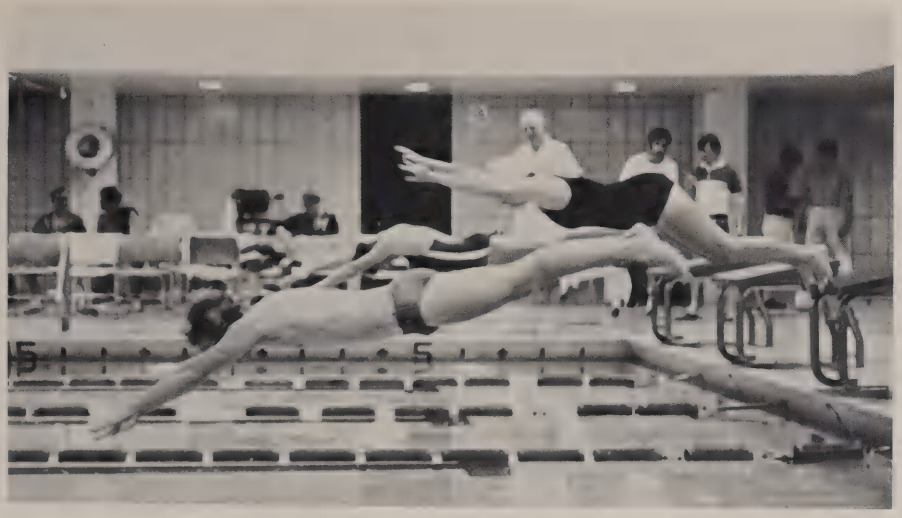
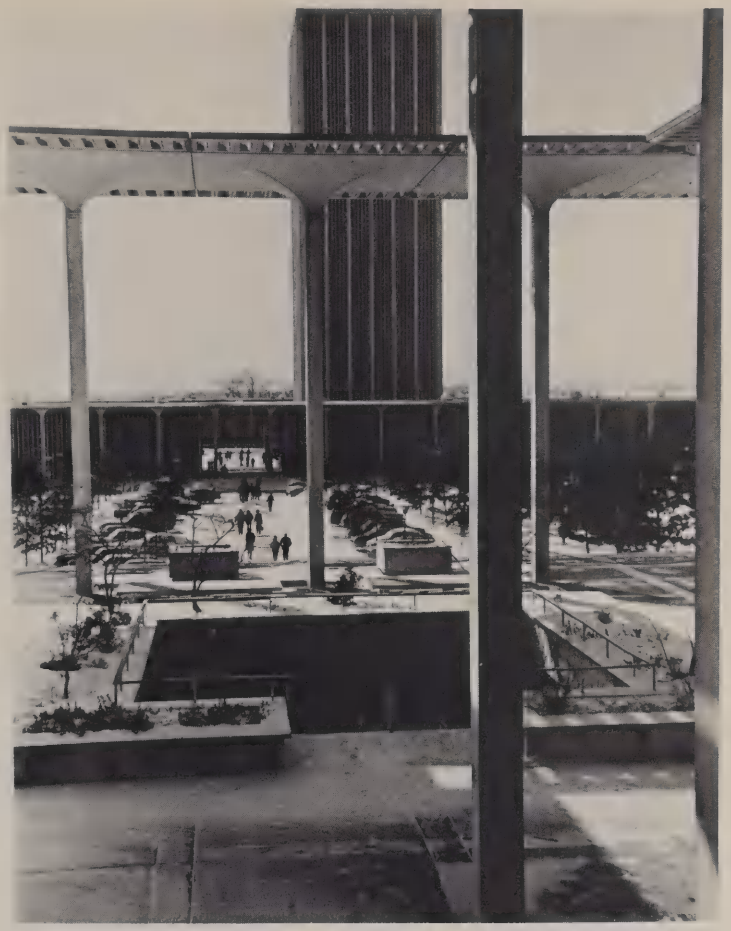
# AMIA/WIRA

There are many intercollegiate sports played at this university; they attract a major amount of the attention given to SUNYA athletics by the public and the media groups. But it is the intramural athletic program that attracts the students. Approximately 7000 people participate in intramural programs at Albany. The Association of Men's Intramural Athletics and the Women's Intramural Recreation Association organize dozens of activities. There's something for everyone, ranging from floor hockey to pinball, softball to sports trivia, and tournaments of all sorts.



FNC



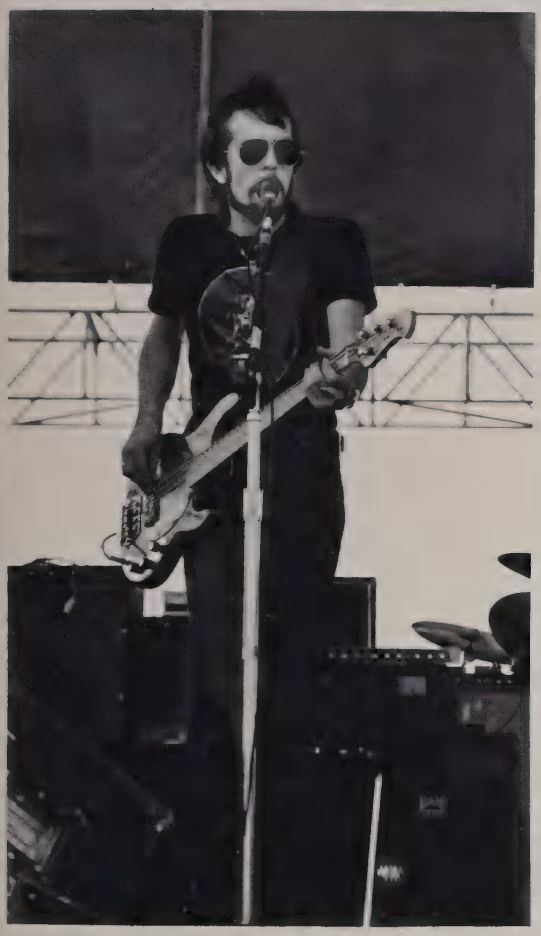
EXIT

# MAYFEST

If you laid back and closed your eyes, it wasn't the softball field behind the Campus Center. There were no finals to be taken, papers to be written, jobs to be found in the upcoming summer. There was just music. And people: stretched out on blankets, watching other people on other blankets, drinking in the beer, drinking in the sun, drinking in the music. It could have been Woodstock.

Well Woodstock was ten years earlier and neither NRBQ, the James Cotton Blues Band, Orleans nor the San Francisco All-Stars played there, but you could pretend. The weatherman predicted rain, as he always does for Mayfest weekend. And, as usual, the sun beat down on the crowd, silhouetting the parachutists and the frisbees against the sky and producing Mayfest-sunburn.

# CHRIS RUSH



# SAN FRANCISCO ALL-STARS

# Senior 3 1/2 days CLAMBAKE

As beautiful as finals week was, sunny and warm every day, most were too busy to enjoy it. It was especially painful for those seniors who were frantically scrambling for enough credits to graduate. But senior week would make up for it, right?

The day of the clambake dawned wet and cold. All right, postpone the event a day. It will be inconvenient but it will be worth it if tomorrow is sunny . . . Well, it was a nice try.

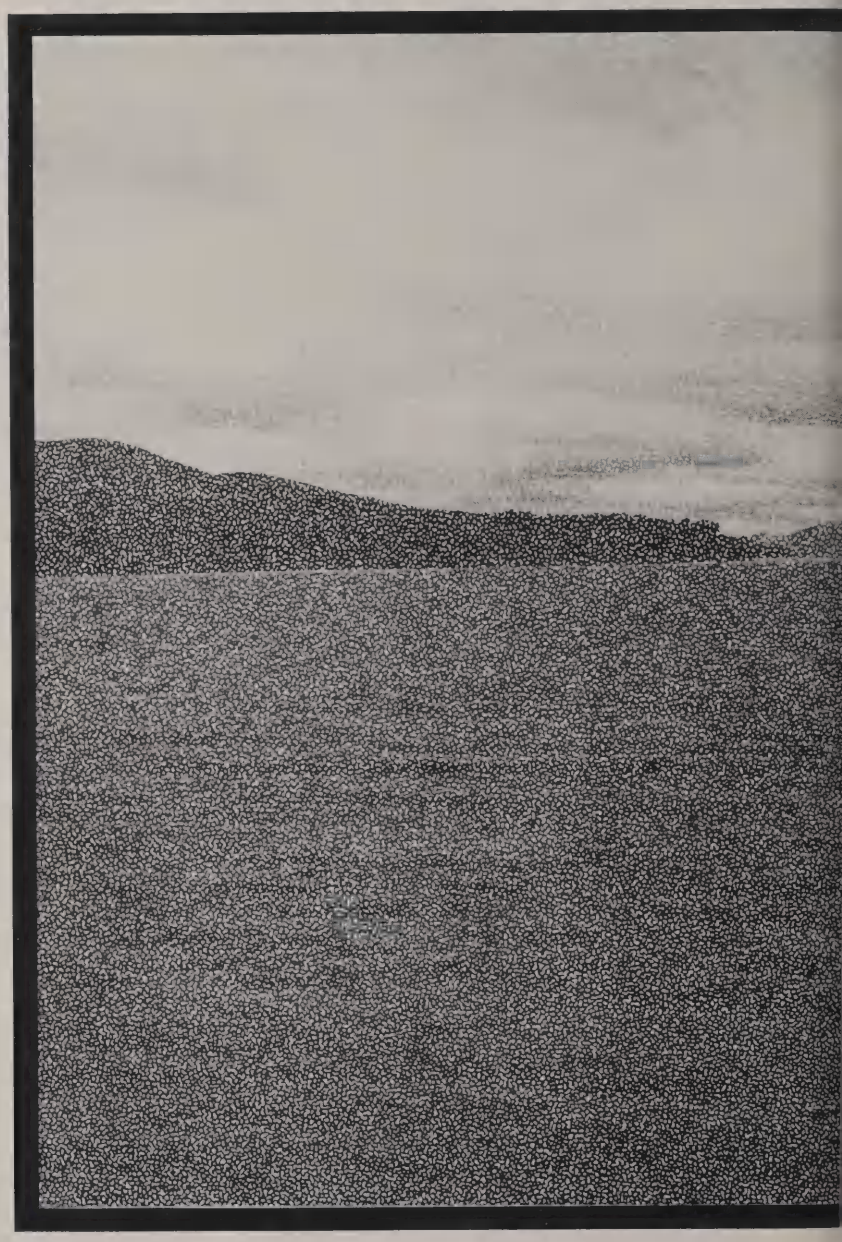
It was appropriate that the clambake be held in the State Quad cafeteria. There most '79 graduates had their first taste of UAS food, then FSA food, at their orientation sessions four years earlier. The clambake would be their last UAS repast.

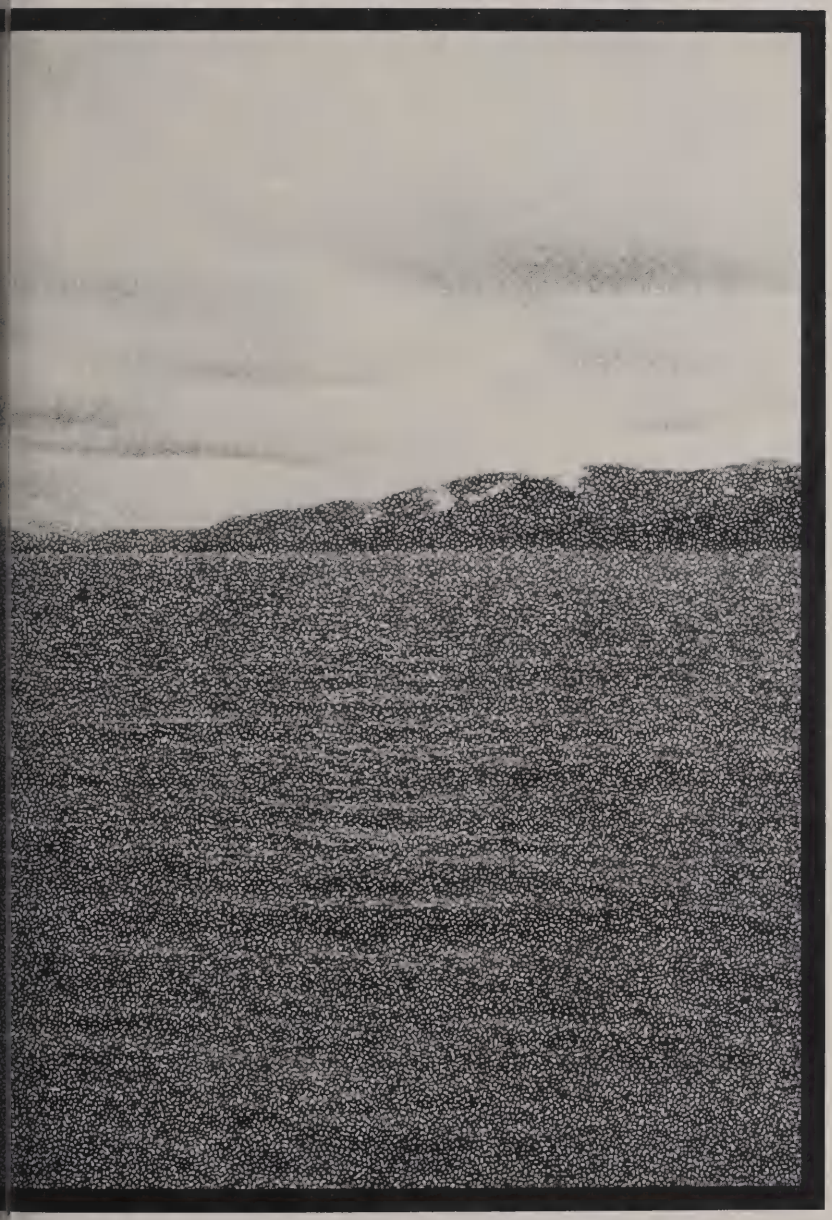
# LAKE GEORGE BOAT TRIP

NEXT BOAT
GASLIGHT VILLAGE

How shall I go in peace and without sorrow? Nay, not without a wound in spirit shall I leave this city.

Long were the days of pain I have spent within its walls, and long were the nights of aloneness; and who can depart from his pain and his aloneness without regret?





Yet I cannot tarry longer.

The sea that calls all things unto her calls me, and I must embark.

For to stay, though the hours burn in the night, is to freeze and crystallize and be bound in a mould.

Kahlil Gibran

# PREPARE YOURSELF TO BE IMMORTALIZED

## (at least comb your hair)

"Hi! . . . Are you here for your portrait? . . . Come on in . . . Is this your first sitting? . . . What's your name? . . . Could you fill out this card for me? . . . No, you don't have to fill out activities and honors, we don't use that in the book . . ."

Having your senior portrait taken is a traumatic experience. No one likes that posed, plastic feeling, the flashing lights, the fake smiles. Most of us would not even be here if our parents didn't make us.

"Have a seat right over here . . . Cross your left leg over your right . . . Sit up straight . . . Turn your head towards me . . . Chin up a little . . . Good . . . Now think of something really nice . . . Say sex . . ." (Click).

And finally, mercifully, it's over. You leave the darkened office with a sign of relief. Until you see the pictures . . . Well, there's always a second sitting . . .

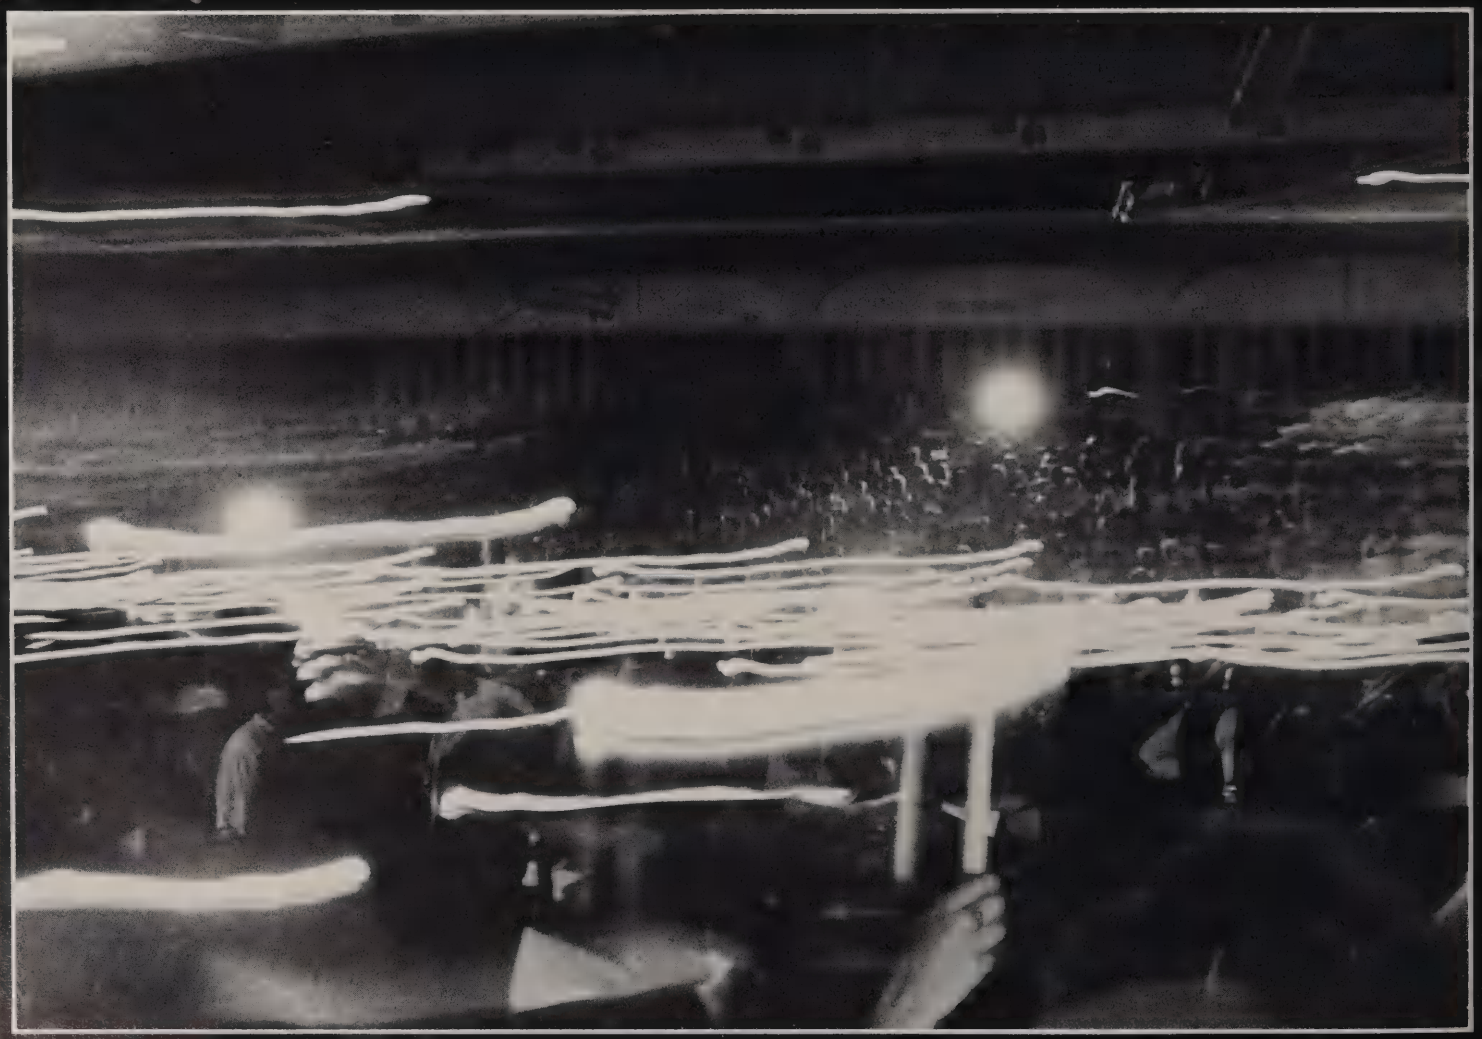
"I knew who I was when I awoke this morning but I must have changed several times since then."
Alice in Wonderland

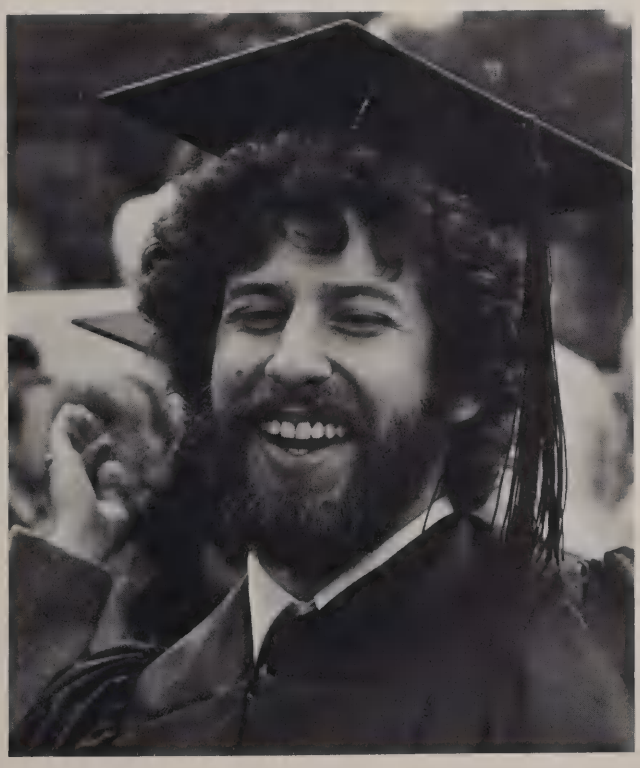
# TORCH NIGHT

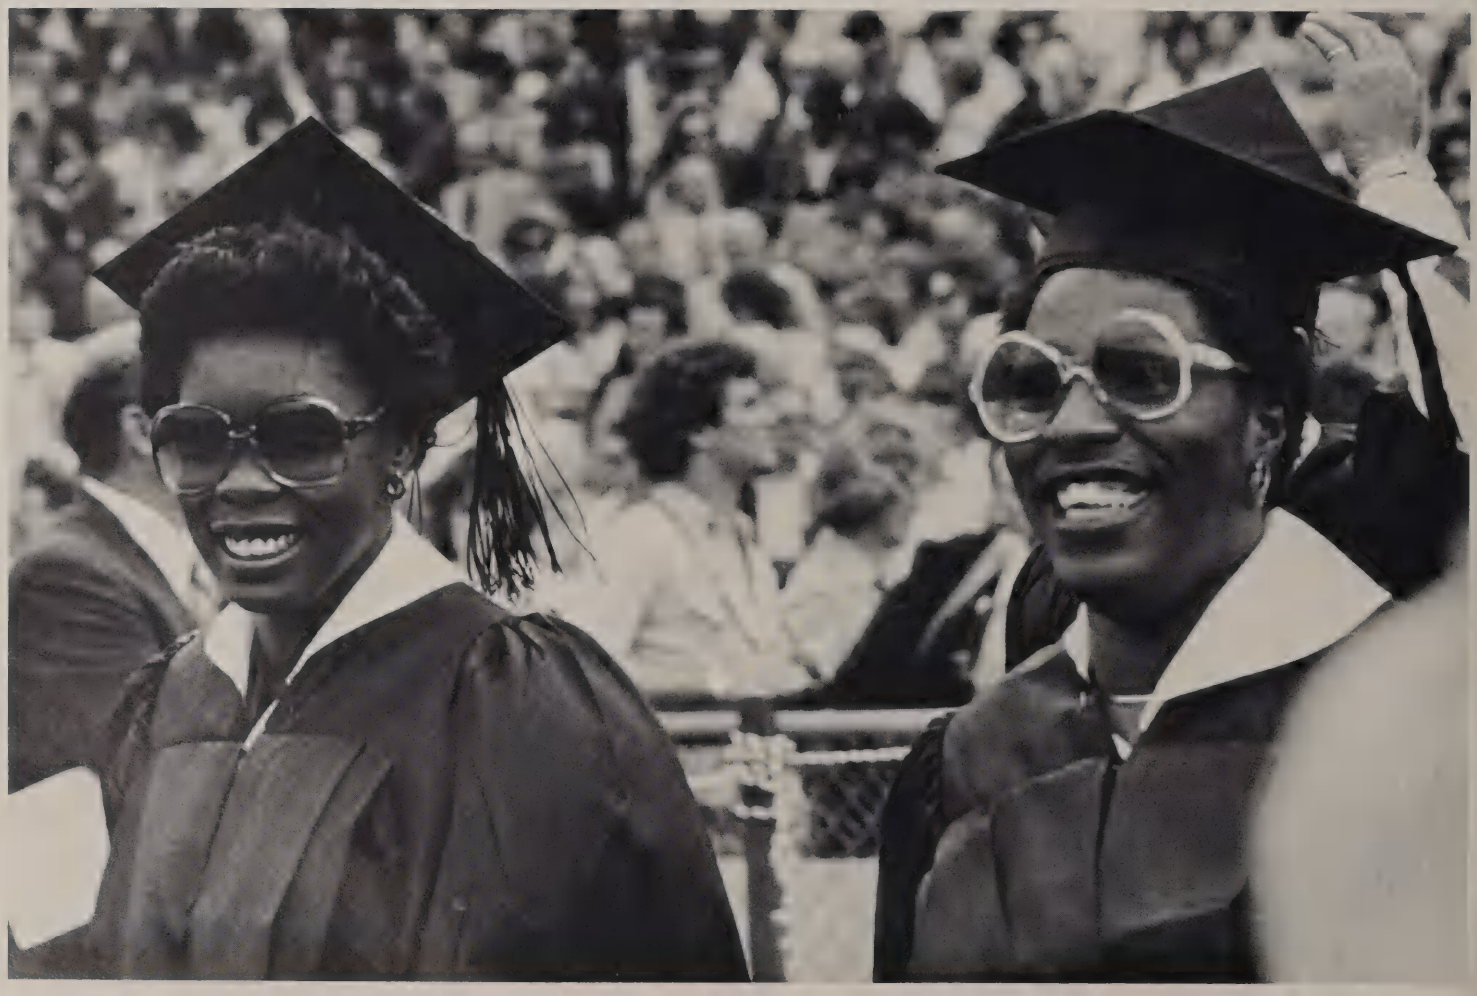


# COMMENCEMENT 1979

i would love to watch
the faces of all who would
dare to oppose us.
we have so much to give
and the world is our stepping
stone.
we can do anything we want to
but do we want to do anything
at all?

C.B. Ratner





Although many may criticize him, many would accuse him of excess spending, Nelson Rockefeller made New York State what it is today. Rocky transformed the Empire State from the time of his election as Governor in 1958. The achievement that touches all students was the expansion of the state university from 38,000 students on 41 campuses to 244,000 on 72. Most of us would not be at college were it not for his efforts. His most controversial construction was the $1 billion plus South Mall, now named the Rockefeller Empire State Plaza. It is a favorite among tourists and provided an impetus for the revitalization of downtown Albany.

Franco Brindisi, Business Manager

I'd like to recognize and give thanks to the following staff members who managed not to have their pictures taken for one reason or another: Cheryl Ratner - for copy and for unending enthusiasm.
Bruce Sheinhaus - for all the sports copy. Jill Simon, Marla Chait, Marla Leon, Donna Piro, Monica Broderick, Mona Wasserman, Janet Folk, Bruce Ficalora, and others (even Chow), for sitting in that dark office during senior protraits.
Casey Fernandez, Phyllis Horowitz, Jerry Mandelbaum and Marla Chait — for unsolicited photography.
Janet Burton — for all the boring work squeezed in between Accounting assignments.

All year I listened to these people complain about not getting photo credits. Now I understand the other side of the story. So this is a rough estimate of who did what. Sorry.

Photos are lettered left to right, top to bottom on each page.

**SCOTT AREMAN** — 2a, 12b, 22c, 26c, 41a, 78 abc, 79, 85acde, 87ab, 89, 90bc, 91b, 92abc, 93a, 100abc, 101ab, 102ab, 103ab, 104ab, 105ab, 116ab, 117ab, 133a, 196d, 293, 295d

**KARL CHAN** — 41ab, 42b, 59a, 63a, 66ad, 67c, 80ab, 81c, 86a, 91a, 189b, 193b, 194b

**MIKE FARRELL** — 36c, 37b, 40b, 41c, 42a, 58b, 59b, 66c, 116abc, 117abc, 119ab, 153a, 152c, 162c, 163c, 189c, 241a, 274g.

**MARK HALEK** — 33a, 40a, 50, 53c, 59c, 67a, 154a, 190e, 195b, 196e, 231a, 298b

**BILL RAYDO** — 146cd

**FRIEDMAN** — 172, 173

When I accepted this job over a year ago, I was very excited. I had long dreamed of the opportunity to create something permanent, something with some significance. I thought I knew exactly what I was getting myself into. I never imagined that I would lose a portion of my identity to the yearbook. I lived the yearbook, I ate it, I drank it, it invaded my dreams and dominated my conversations. It was the center of my existence for an entire year.

I began the task that was to become an obsession by asking anyone that would answer me, "What should a yearbook be?" Is it an artistic effort? Is it journalism? An accurate representation of the events of the year? A perception of the "University Experience" we've heard so much about? I never found the answer to that question.

So whatever you think a yearbook should be, here is my version. You are holding the product of my laughter, my tears, my pride, my disappointment, and above all, nearly every moment of my waking hours for an entire year, spent in pursuit of that vague notion called — yearbook.

You cannot imagine how I feel now, at this final stage. Relief? I finally know how to spell it again. Soon my weekends will be my own again. I will be able to sit in the sun and talk to my friends without guilt. Bored? I suppose I will be, the way one tires of home and travels the open road in pursuit of a dream. Well, the wanderer has returned home.

Like the Academy Awards I have quite a few people to thank for their part in producing this book: Scott Birge and the Campus Center staff, who have a million scraps of paper saying I am staying late; the ladies at Check Cashing, always catching my mistakes; Gene in the mailroom; Community Relations for the construction shots; Rita in the SA Office, Roger Merritt and the people at Hunter, for understanding all my notations, everyone at Merin Studios, expecially Lee, Mary, John, and Rick; and . . .

**Photo Service** — A truly talented group of men and women who attempted to understand the directions of an inarticulate non-photographer. There wouldn't have been a book without you.

**Tony Tassarotti** — for too many prints done in too short a time, for teaching me more about photography than I could understand, and for asking so many questions I had to stop and think . . . Thankyou thankyouthankyouthankyouthankyou and good luck.

**Mary Ann Hovak** — who shared this office with me as if it were our home, for many good cups of tea and being my voice at PhotoService meetings.

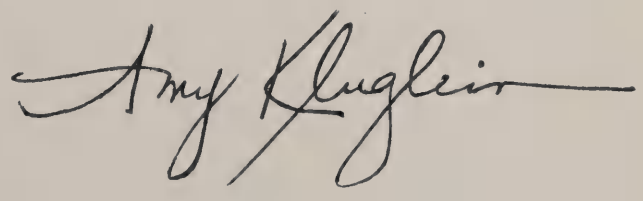
**Sam Terilli** — for the opportunity to do this, for caring enough to try to talk me out of it, and advice to get me through it.

**Steve Merin** and **Donna Frabotta** — for answering all the stupid questions I could think of to ask, and just enough encouragement.

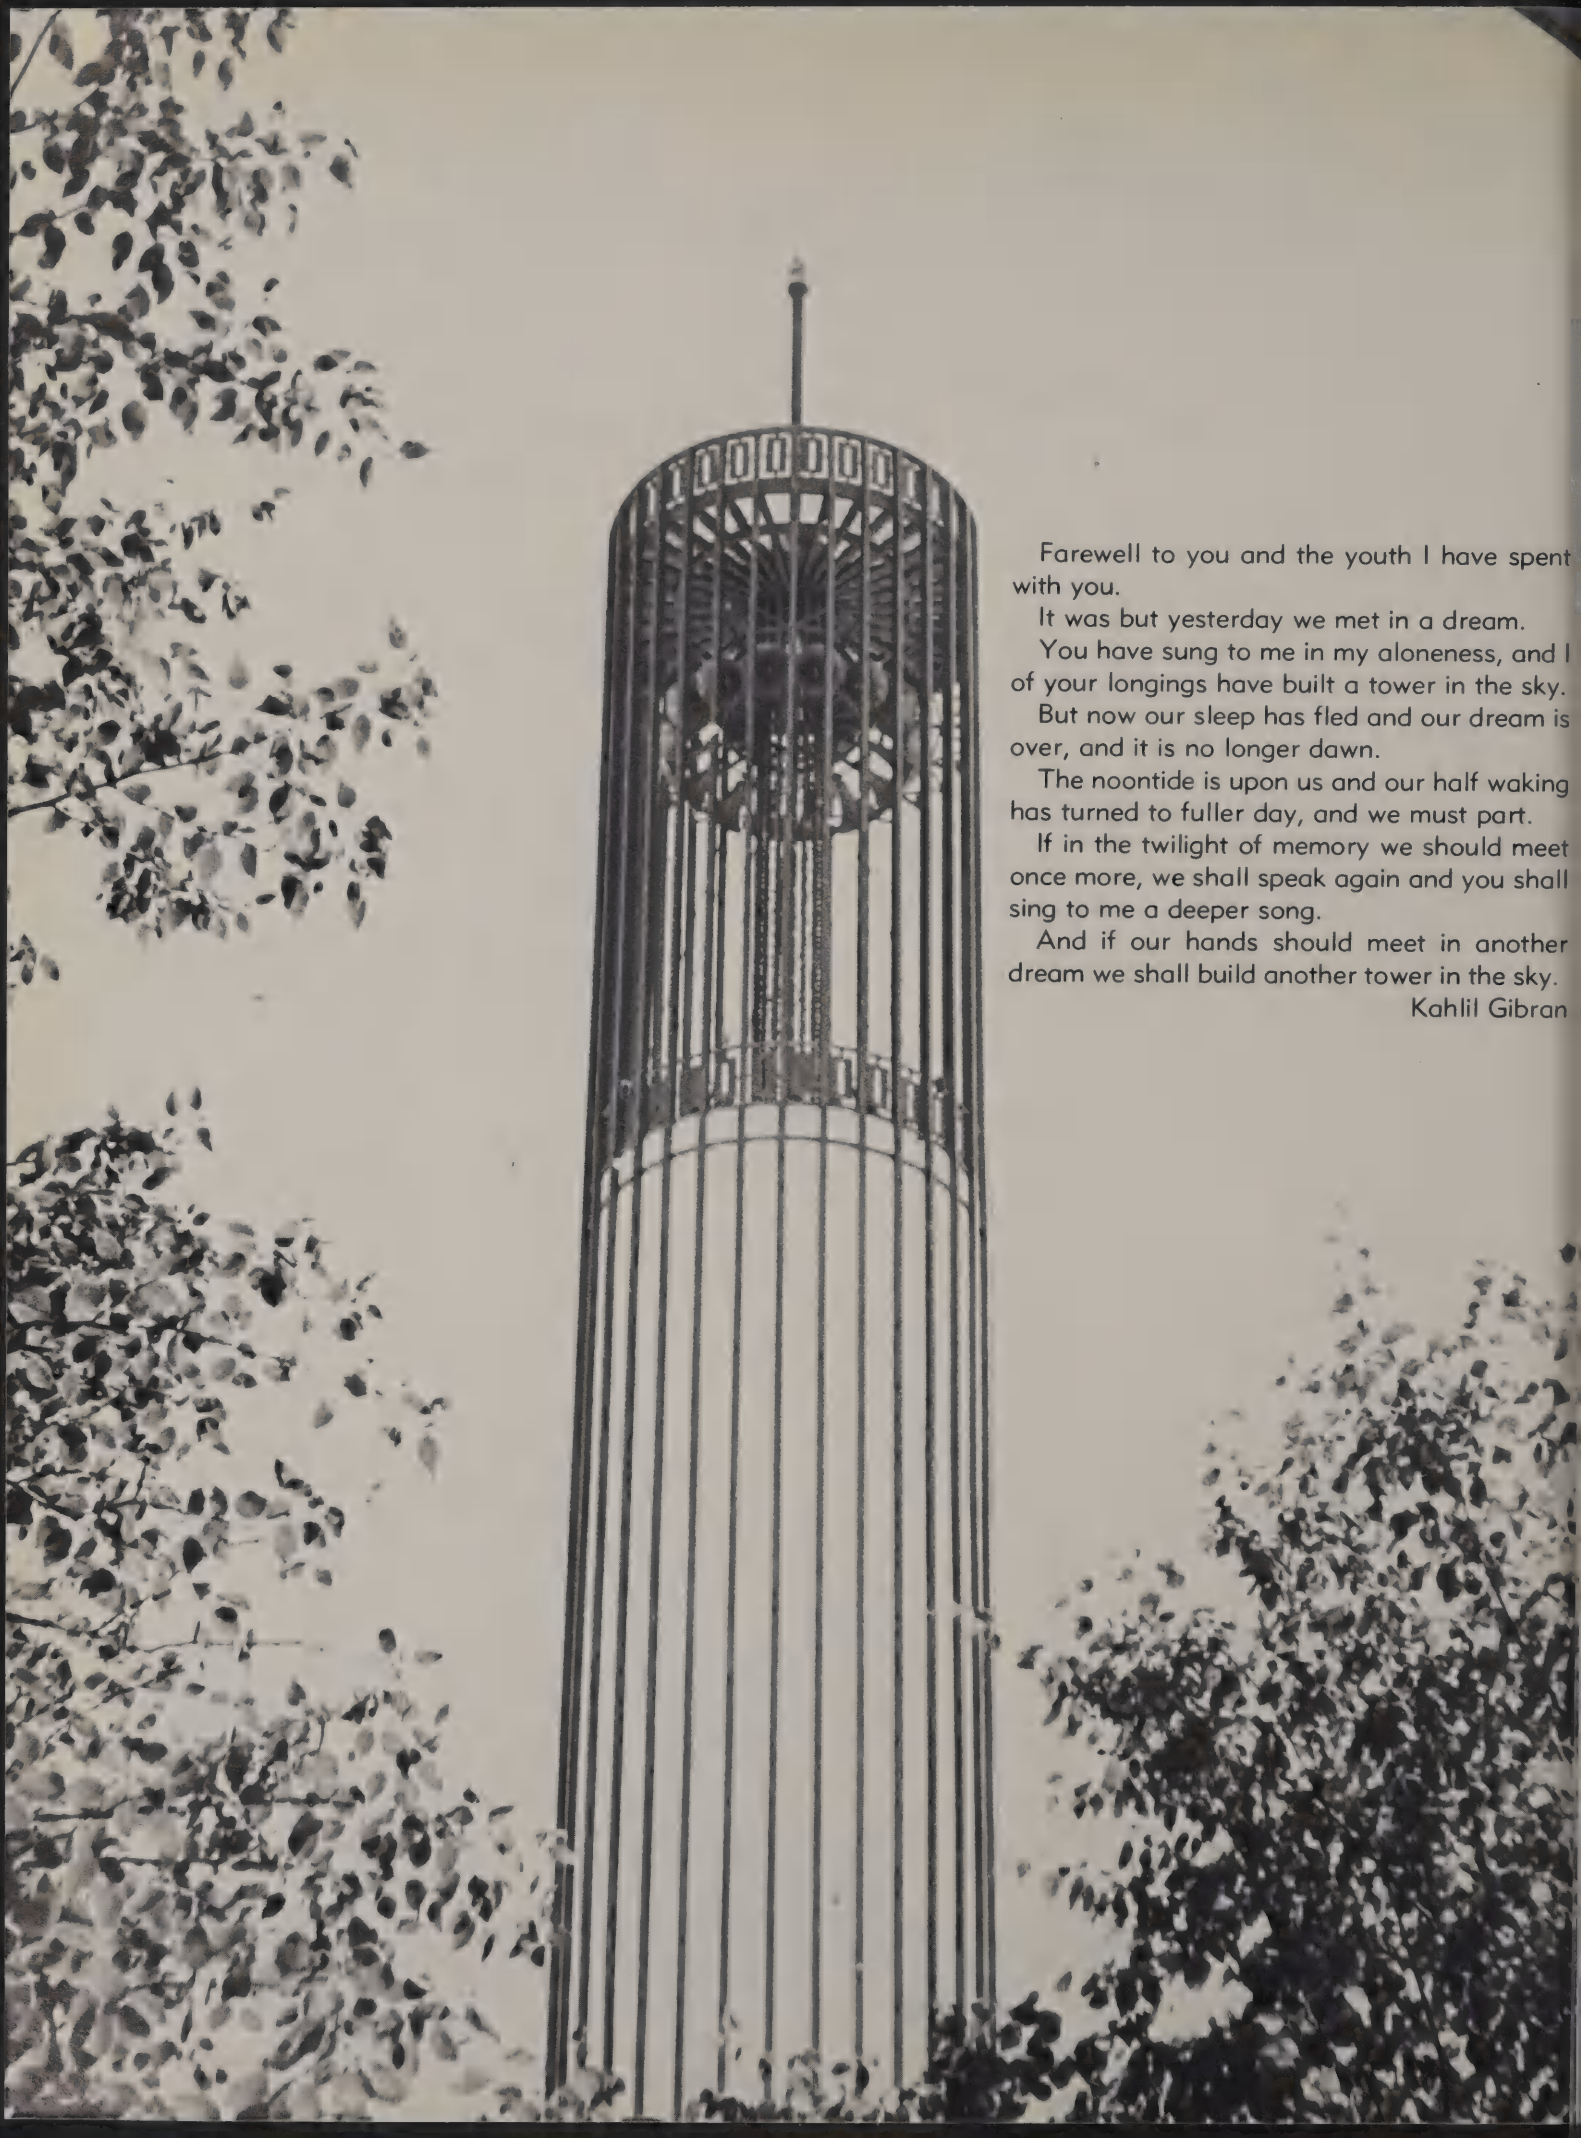
My apartment mates, **Janet Folk** and **Mona Wasserman,** for their support, and **Monica Broderick,** on whose shoulder I cried the longest, the hardest, and the most often. There is nothing I can say to express my feeling for all of you; we are family.

**Dorothy Aspinall** — for long distance understanding and years of friendship.

**My parents** — for understanding that I had to do this . . .



Amy Kluglein



Farewell to you and the youth I have spent with you.

It was but yesterday we met in a dream.

You have sung to me in my aloneness, and I of your longings have built a tower in the sky.

But now our sleep has fled and our dream is over, and it is no longer dawn.

The noontide is upon us and our half waking has turned to fuller day, and we must part.

If in the twilight of memory we should meet once more, we shall speak again and you shall sing to me a deeper song.

And if our hands should meet in another dream we shall build another tower in the sky.

Kahlil Gibran
